WORK EXPERIENCE

Software Developer

Planetcast Media Services Limited

07/2022 - Present

Noida, India

Achievements/Tasks

- Competent at handling content from well-known authors, seasoned in creating media-focused websites using Angular on the client side, and able to put in place strict quality controls and user-friendly processes.
- I worked closely with the database and backend teams to collect server-side requirements, making sure that efficient implementation techniques allowed for a smooth integration into the user interface.
- Contributed to the creation of reusable parts intended to improve uniformity and scalability throughout the application ecosystem.
- Used RxJS to handle states effectively inside the application architecture and an Angular router to facilitate smooth navigation.
- I started and oversaw the entire "MD Manager" project, supervising every facet of its creation and management from start to finish.

Software Developer

Collabera Technologies

03/2022 - 06/2022

Pune, India

Achievements/Tasks

- Contributed to the creation of a health-focused website with strong functionality and usability that makes patient tracking across US cities easier.
- I designed and created key modules and components that are necessary for the operation of the application, utilizing RxJS and an Angular router to provide smooth navigation and effective state management.
- Contributed significantly to the creation of components that made heavy use of reactive forms, guaranteeing responsive and dynamic user interactions across the program.
- Helped with the API integration and used SCSS to improve the project's styling and design, resulting in a smooth and aesthetically pleasing user experience.
- Used Angular material to implement a common design pattern across the application.

EDUCATION

Master Of Technology

Maharishi Dayanand University

06/2019 - 06/2021

Rohtak, Haryana

SKILLS

JavaScript

TypeScript

Angular 2+

Bootstrap

HTML

CSS

RxJS

Angular Material

Angular Router

Responsive web design

Git/svn

Rest API's

JSON

Visual studio

Web Application development

npm

Browser Development Tools

PERSONAL PROJECTS

Developed UI of a dummy e-com web app using Angular.

Created separate personal portfolios using Angular and React respectively.

Developed multiple web apps using Vanilla Java Script, react and Angular for example task manager, simple counter, calculator, calorie tracker, score keeper app etc.

CERTIFICATES

Certified in HTML CSS Responsive Web Design and JavaScript from an online learning platform known as Solo-Learn (01/2020 - Present)

Certified in The Web Developer Bootcamp 2022 from Udemy (02/2022 - Present)
